

**TT No.003:10/01/05 - Somerset Adventure: *Dave Reed* - Weston and Clevedon -**

Another little adventure to report from last Saturday. I was a passenger in a car heading for Weston Super Mare. Despite the best efforts of a Transit van to force us into the central reservation of the M4, we arrived at the motorway services at about twelve o'clock to confirm that the game was on. We located the ground in Weston and then went into town where two of us adjourned to the bar on the station for a couple of halves whilst our other passenger went for a walk into the town. The two of us returned to the ground at about ten past two to discover that the game had been called off. Whilst waiting for our third member to re-appear we called the nearest and probably only feasible replacement fixture at Clevedon but could get no reply. However, once our walker had turned up, we decided to try Clevedon more in hope than expectation. Imagine our delight to arrive at the ground at 2.50 to find the game on. Although all three of us had been there before, we were more than happy in the circumstances to get a game in. Four goals for the home side as well, thus bringing to an end for me of a run where the home side had not scored for about 500 minutes. The programme was 28 pages inside a colour cover for £1.30 and reasonably good value. WebEd - Cheers Dave. Always have a back-up just in case!
